Les Intouchables

Tradition, distinction and the art of celebration

Some names are spoken in whispers, some stories remain untold, and some circles need no introduction.

Les Intouchables brings together French refinement and the Italian soul: a New Year's Eve experience where tradition meets the glamour of private salons, fine dining and the mystery of a bygone era.

Each dish is conceived as a chapter of this celebration: the gleam of gold, the discretion of silence, the strength of loyalty and the intensity of a chocolate finale.
An invitation to welcome the new year with elegance, without compromising what defines us.

Un cercle à part. Una notte indimenticabile.
